Pre-Primary Dance Club	Perfect for dancers ready to explore dance even more! 90 fun-filled minutes of Ballet, Tap and Modern Dance, developing confidence, coordination, musicality and creativity whilst learning a variety of dance styles. Dancers start building technical foundations whilst growing in confidence!	Reception
Primary Dance Club	Perfect for dancers ready to explore dance even more! 90 fun-filled minutes of Ballet, Tap and Modern Dance, developing confidence, coordination, musicality and creativity whilst learning a variety of dance styles. Dancers start building technical foundations whilst growing in confidence!	Year 1
Grades 1, 2, 3, 4, 5 & 6 Tap	The ISTD Tap Grade syllabus provides a structured pathway for dancers to develop rhythm, coordination, musicality, and technical tap skills. As students' progress through Grades 1 – 6, they build confidence, accuracy, speed, and performance quality while learning increasingly complex steps, combinations, and choreography. Each grade encourages a strong understanding of timing, style, and expression, providing an excellent foundation for both recreational dancers and those wishing to progress to vocational training. Grades 1–6 are part of the ISTD's progressive examination pathway and are designed to develop dancers safely and systematically.	Year 2 through to Year 10
Intermediate, Advanced 1 & Advanced 2 Tap	The ISTD Vocational Tap syllabus is designed for dedicated dancers who wish to develop advanced technical ability, musicality, performance skills, and artistry. Progressing through Intermediate, Advanced 1, and Advanced 2, students refine speed, precision, rhythm, style, and professional performance quality. The vocational syllabus provides an excellent pathway for those considering further dance training, teaching qualifications, or a career in the performing arts, while encouraging confidence, creativity, and a high level of technical excellence.	Year 10 upwards
