

Vocational Ballet Class Menu

The RAD Vocational Graded Examinations are designed for students who wish to develop strong classical ballet technique and artistry to a higher standard. These grades build on the foundation of the Graded syllabus and prepare dancers for more advanced training.

Students are invited to Vocational RAD classes based on their technical ability, strength, commitment, and readiness, as assessed by their teacher. Invitations are extended to dancers who demonstrate the potential to benefit from the increased technical demands and dedication required for vocational training.

Class	Age Range
